

Berkeley Unified School District

Dear Longfellow Community,

At this time, we have received no information indicating that any BUSD students were involved in today's shooting incident in Berkeley, or any indication that BUSD students were in danger. In an abundance of caution and on advice of Berkeley Police, we instructed Berkeley Technology Academy and four other sites (Berkeley High, Longfellow Middle, Washington Elementary and King Development Center) to secure their perimeters. All sites were able resume normal operations within about an hour or less. We would like to clarify that a formal lockdown – in which internal campus movement is restricted – was not implemented at Berkeley Technology Academy or at any of the other BUSD sites.
